

AMENDMENTS TO THE SPECIFICATION

Please replace Paragraph [0039] with the following paragraph rewritten in amendment format:

Referring now to FIG. 3B, the analog FM demodulator ~~[[112]]~~ 198 receives an output of the RF front end 102. The analog FM demodulator ~~[[112]]~~ 198 demodulates the analog received signals. The analog FM demodulator 112 in FIG. 3A receives an output of the A/D converter 104 and demodulates the digital output thereof. Both demodulators 112, 198 generate an analog FM detect control signal, which is output to the system selector 114, in addition to the demodulated analog audio signals.
